

Red Hot Chili Peppers, Peace & Love

Stick with me darling
I will be your man
Your company calls the best up out of me
Click with me baby
I will lay this hand
Soft as any moss upon your feet

Stayley are you out there
I am in your lane
Catch that cup of water when it falls
Wait for me darling I'll be on that train
Catman had a message for us all

Shout out to my lonely friends
A message that I meant to send
I got peace and love for you right now
And when I see my little sis
A middle western genius
She's got peace and love for you somehow

Gitchi Gummi sisters playing with the wind
Semi-naked flowers by my side
Gitchi Gummi sisters with your golden skin
What is in your nature we can't hide

Well I'm a lover to all my tribes
Oh tell me motherfucker can you feel my vibes
She's a lover to dance on earth
Now I know the meaning of what it's worth

Shout out to my lonely friends
A message that I meant to send
I got peace and love for you right now
And when I see my little sis
A middle western genius
She's got peace and love for you somehow

Drift with me Woodson to another side
A streak of violence
Be lion's pride

Sober señorita and 200 tears
A trail of happiness
And tears have dried

Shout out to my lonely friends
A message that I meant to send
I got peace and love for you right now
And when I see my little sis
A middle western genius
She's got peace and love for you somehow

Tell me something I don't know
I've got no better place to go
I've got peace and love for you right now

Surely as I jump this bus
Nothing but the two of us
We've got peace and love for you somehow
