

# Red Hot Chili Peppers, These Are the Ways

Make me a fist  
Purple Mountain road that I can't miss  
Have we all had enough?  
Have we all had too much?  
Lost in a dream  
Please step down from your bully machine  
Can we all back it up?  
Can we all give it up?

These are the ways when you come from America  
The sights, the sounds, the smells  
These are the ways when you come from America

I don't want to die and she's gonna take good care of ya  
I just want to thrive and there's gonna be hysteria

Don't be late  
Walk us through the golden gate, yeah  
Bruce and George  
Singing for their own reward

Take me inside  
Twenty-three windows and it's gonna be a long ride  
All had enough?  
Have we all had too much?

Sing me the blues  
Cowgirl's tight in her basketball shoes  
Can we all back it up?  
Can we all give it up?

These are the ways when you come from America  
The sights, the sounds, the smells  
These are the ways when you come from America  
I don't want to die and she's gonna take good care of ya  
I just want to thrive and there's gonna be hysteria

Don't be late

Walk us through the golden gate, yeah  
Bruce and George  
Singing for their own reward
