Red Hot Chili Peppers, This Velvet Glove

Close to my skin I'm falling in Someone who's been

Sittin' by the phone I'm left alone In another zone

John says to live above hell and My will is well

No one is waiting For me to fail My will could sail yeah

It's such a waste to be wasted In the first place I want to taste the taste of Being face to face with common grace To meditate on the warmest dream And when I walk alone I listen To our secret theme

Your solar eyes are like Nothing I have ever seen Somebody close That can see right through I'd take a fall and you know That I'd do anything I will for you

Sailin' for the sun 'Cause there is one knows where I'm from I care for you I really do I really do

Come closer now So you can lie Right by my side

Sit alone in the sun I wrote a letter to you Getting over myself

Your solar eyes are like Nothing I have ever seen Somebody close That can see right through I'd take a fall and you know That I'd do anything I will for you

Your solar eyes are like Nothing I have ever seen Somebody close They were made for you I'd take a fall and you know That I'd do anything I will for you

Close to my skin Someone who's been I'm falling in Disasters are Just another star Falling in my yard

John says to live above hell My will is well

Long to be with Someone to tell I love your smell
