

# Red Hot Cinnamon, Somethin' Somethin'

"I catch you looking at me all the time  
I wanna touch you and say that it's alright  
I know you've got someone there by your side  
But does she do you the way I do you in my mind

Bridge -

(Maybe in time she'll learn to love you better)  
Oh baby, she's got to love you more  
(And maybe in time she'll learn to do you right)  
Cause I know that I can do you right

Chorus -

And if you want a little somethin' somethin', baby  
I got what you want baby you can't run from me  
And if you want a little somethin' somethin', baby  
I got what you need baby you can run to me

I know you want me and I want you too  
I'd love to show you the things I can do for you  
A little somethin' is all that I need  
I'll give you my love if you can make me feel complete

Bridge

Chorus

The people say what they say  
'Bout all the games that we play  
I wanna kiss you baby  
I wanna rub you down  
Don't care if it's wrong or right  
I only need you tonight  
Oh baby, as long as you treat me right

Chorus 3x"
