## Red House Painters, Love At First Feel

(Young - Young - Scott)

I didn't know where you came from And I didn't know your name And if you were legal tender Well I spent you just the same I didn't know it could happen to me Love in the third degree

It was love at first feel

They told me it was disgustin' They told me it was a sin Every night at your front door I'd smile when you let me in Now it's you and me baby In your house all alone Better make things happen Before your mum and dad get home

It was love at first feel
