

# Red Lorry Yellow Lorry, Another Side

On the other side looking in  
You thought you were pretty smart but you're so dim  
I don't mind I don't care what they say  
Because I'm up in the mornings to go down with you  
From another side, say you win  
You're teaching this place apart but you want me in  
I don't mind I don't care what they say  
Because I'm up in the mornings to go down with you  
With you... with you
