

Red Lorry Yellow Lorry, It Was Wrong

I was wrong to bring you down, in a life you see me
In your smile I'm lost and found with the things I see today
Always on my mind in a line you sent to me
It seems wrong to turn this round with the love that I could see

Ah the memories you gave me
Make me want to cry
Ah the memories you gave me
I don't want as lies

We were wrong to bring this down in a life you see me
It seems wrong to turn this round with the thing that I can see
Always on my mind in a line you sent to me
It seems wrong to turn this round with the love that I could see

Ah the memories you gave me
Make me want to cry
Ah the memories you gave me
I don't want as lies

Always on my mind in a line you sent to me
It seems wrong to turn this round with the love that I could see

It was wrong
It was wrong
