

# Red Sakura, Take Me Home Tonight

I feel a fire, it's a desire  
That tries to keep a girl awake at night  
Are you the answer? Take me higher  
When I feel you whet my appetite

I get frightened in all this darkness  
I get nightmares, I hate to sleep alone  
I need some company, a guardian angel  
To keep me warm when the cold winds blow

Take me home tonight  
I don't wanna let you go  
Till you see the light

Take me home tonight  
Listen honey  
Love at first sight

Take me home tonight  
I don't wanna let you go  
Till you see the light

Take me home tonight  
Listen honey

Love at first sight  
Love at first sight  
Love at first sight

Take me home tonight  
I don't wanna let you go  
Till you see the light

Take me home tonight  
Listen honey  
Love at first sight

Take me home tonight  
I don't wanna let you go  
Till you see the light

Take me home tonight  
Listen honey

Love at first sight
