

Redd Kross, Any Hour, Every Day

Distortion, that's what you are
Naked electric guitar

While I'm watching you I see myself
Yes the time is right
And I want you now

I'd lose my dignity
Just to have you one more time
Any hour every day
Well, you can have it

Vision, I see the light
Fire in overdrive

While I'm watching you I see myself
Yes the time is right
And I want you now

I'd lose my dignity
Just to have you one more time
Any hour every day
Well, you can have it

Fire in overdrive
Distortion, it comes alive

I'd lose my dignity
Just to have you one more time
Any hour every day
Well, you can have it

You can have it - Any hour, every day
You can have it - Any hour, every day
You can have it - Any hour, every day
You can have it - Any hour, every day
