Redd Kross, Burn Out

Burn out, can't go any farther Burn out, well i'm not getting smarter Burn out, something once for fun Burn out, now i can't get it done

So leave me leave me leave me alone (now now now) Leave me leave me leave me alone (now now now) Leave me leave me leave me alone (now now now) Leave me leave me leave me alone (now now now) And please don't make fun of me

Burn out, get off my case Burn out, well can't you see my face Burn out, say it with a grin Burn out, paranoia sets in
