

# Rediscover, Shake It

Now baby just tell me when  
I'll pick you up then  
If you'll be ready  
I'll be waiting

Now baby just tell me when  
You been drinking  
Too much and  
You feel like leaving

Now shake it  
Like you mean it  
Now fake it  
Like I see it  
Now come on, baby, shake it  
Like you mean it  
Now take it  
Like I need it

On our first date you run away  
Then come back another day  
The phone tag you know I hate  
On our first date you run away  
Then come back another day  
The head games you love to play

I don't wanna play  
I don't wanna play

On our first date you run away  
Then come back another day  
The phone tag you know I hate

Now baby just tell me to  
Say I like you  
I'll say it anyway  
If that's alright too

Now baby I won't ask you  
If you don't want to  
I won't hurt you  
Unless you want me to

Oh, shake it girl  
I'll fake it girl  
You shake it  
And I'm gonna take it

Oh, if you shake it girl  
I'll fake it girl  
If you shake it  
Well then I'm gonna take it

Shake it like you mean it

On our first date you run away  
Then come back another day  
The phone tag you know I hate  
On our first date you run away  
Then come back another day  
The head games you love to play

I don't wanna play  
I don't wanna play

On our first date you run away  
Then come back another day  
The phone tag you know I hate

My face that haunts you  
It pushes you back to  
A corner in your bedroom  
Well, baby, just don't be scared  
When I touch you there  
Don't act like you don't care

Is it my face that haunts you?  
And pushes you back to  
A corner in your bedroom  
Well, darling, don't be scared  
When I touch you there  
Don't act like you don't care

Don't be scared

On our first date you run away  
Then come back another day  
The phone tag you know I hate  
On our first date you run away  
Then come back another day  
The head games you love to play

I don't wanna play  
I don't wanna play

On our first date you run away  
Then come back another day  
The phone tag you know I hate

Oh, shake it girl  
I'll fake it girl  
You shake it  
And I'm gonna take it

Oh, if you shake it girl  
I'll fake it girl  
If you shake it  
Well then I'm gonna take it

And I need it x6  
Do you mean it?  
And I need it
