Shot wit vaults until death news can talk

Cripple kids can walk

My style will show guns what it is to spark

Hit a clear the park 20 miles apart

Doc is like bad weather reports but i'll walk

If your not from the tri-boro, story settled

I pack gordy metal for those who act fool  
Big fish in da water and we hard to harpoon  
I'm like open wounds pourin iodine  
Messin wit us is like saving "Private Ryan"  
You acting out a line now you lying, dying  
Wash my evil hands in the fire hydrant  
Yeah Girl! My kahuna's hooked up in da harness  
Flying through hard knock life is still torn  
My ropes popped in Chicago i hit the floor then  
Got up and woke up wit a burn in the morning

(Method Man)
