

# REDZED, Blizzard

I'm high, the serotonin level's on  
It's fine when all the deeper thoughts are gone  
This time I want to get erased  
I'm way too sick of thinking, not able to amaze  
I'm high, the serotonin level's on  
It's fine when all the deeper thoughts are gone  
This time I want to get erased  
I'm way too sick of thinking, not able to amaze

Losing myself over you  
Will we ever glide to moon?  
Getting wasted in the noon  
Flying higher than balloon  
All the drugs and liquor drinking  
Got me fucked in many ways  
I'm so anxious and I'm thinking  
Get me wrapped up in a daze

Losing myself over you  
Will we ever glide to moon?  
Getting wasted in the noon  
Flying higher than balloon  
All the drugs and liquor drinking  
Got me fucked in many ways  
I'm so anxious and I'm thinking  
Get me wrapped up in a daze
