

REDZED, Blizzard

I'm high, the serotonin level's on
It's fine when all the deeper thoughts are gone
This time I want to get erased
I'm way too sick of thinking, not able to amaze
I'm high, the serotonin level's on
It's fine when all the deeper thoughts are gone
This time I want to get erased
I'm way too sick of thinking, not able to amaze

Losing myself over you
Will we ever glide to moon?
Getting wasted in the noon
Flying higher than balloon
All the drugs and liquor drinking
Got me fucked in many ways
I'm so anxious and I'm thinking
Get me wrapped up in a daze

Losing myself over you
Will we ever glide to moon?
Getting wasted in the noon
Flying higher than balloon
All the drugs and liquor drinking
Got me fucked in many ways
I'm so anxious and I'm thinking
Get me wrapped up in a daze
