

REDZED, Break The Broom

What the fuck is up?

Ayy, ayy

When I pull up in the spot, then your ego 'bout to drop, bitch
Never gonna stop, always droppin' all the hot shit
Cemetery punk, I don't give a motherfuck, shit
Pull up with the ratatata, end of our discussion
Those tats on your face, they will never treat your complex
Act like a cunt and then say it's out of context
Watch out, bitch, I'm pullin' up on you
I got the fuckin' need to break you, motherfuckin' broom

It's 'bout to get down, all catastrophic

Destiny is comin' for you now
I'm looking for redemption in your eyes

You should download three beats and then mix 'em together
Bitches might like it, then flex with the cheddar
Heard you been dissin', no, ain't you a batter?
Bitch, I'm on motherfucker, don't be mad 'cause I'm better
Oh, I hate you, and you better be in the ground
You are the waste of humanity, don't deny
Another kill as a remedy, can't you fight me?

Destiny is comin' for you now
I'm looking for redemption in your eyes

Destiny is comin' for you now
I'm looking for redemption in your eyes
