

REDZED, Doom

These are dead, I'm loving this
I keep on gazing, never rest
A demon, praising the devil
Feed on the blackness, I don't pray ever
I'm staying indoors, in a phase, I can never fight
I'm playing with dolls, they all made out the guts and bite
I'm coming to fall, all the reeking bodies
Moon is rising, I killed somebody

I've been the victimized!
It's all the radiation
You fucking parasite!
The doom is our dimension
The sickness of mankind!
They kill an automation
My teeth, they start to grind!
I'm gone, forgot to mention

Black leaves gon' start the falling
Dead seeds and all the calling
They deep, you know that it's your doom
It's your doom, oh mighty
Talk's cheap, you don't belong here
Can't keep this all along and
Bare feet, I'm cuffing through your wound
Through your wound, oh mighty

I've been the victimized!
It's all the radiation
You fucking parasite!
The doom is our dimension
The sickness of mankind!
They kill an automation
My teeth, they start to grind!
I'm gone, forgot to mention

These are dead, I'm loving this
I keep on gazing, never rest
A demon, praising the devil
Feed on the blackness, I don't pray ever
