

REDZED, ODIUM

I disobeyed you (You know I hate you!)
It makes you angry (I know you hate me!)
You know we can't stand each other
Don't get in my face
There's nothing in you (There's nothing in you!)
You're foul and empty (You're foul and empty!)
I wanna tear you all apart
Get out of my space

I been lied to, torn apart, might do
Something evil, I'm twisted and I'm pissed
I'm a typhoon, doing the blow is my doom
And I'm sinking deeper in abyss
All the hard shit is building up, I'm lost, shit
Every second of day I'm getting high, bitch
Lost it, lost my mind, lost it
Doing crazy shit, I'm fuckin' blasted

I can't stop feelin' bad
The pain is coming back
No, I won't eat for days
'Cause I'm not worthy of grace, no!

Solar eight-string bringing out all the magic
Roland JD-X&A be my gadget
Flying in space, left my base like I'm Ratchet
Everybody knows that I'm up to some bad shit
Feeling like dirt, but I'm still steady swaggin'
But I don't flex, I ain't dumb, never bragging
Straight out the mud like a motherfucking maggot
Came, fucked 'em up, underworld I inhabit
