

REDZED, STOMACH PAINS

All these scars, they make no sense
I wanna commit suicide again
Every time I see your face
I feel so hopeless deep inside of me

My mind is gone for so low
My soul has been torn apart again
Oh my God, please come to me
I really need your help this time again

My mind is gone for so long
My soul has been torn apart again
Oh my God, please come to me
I really need your help this time again

Help this time again
Need your help this time again
Need your help this time again
Need your help this time again
