

Reel Big Fish, Give It To Me

You got to give it to me
You got to give it to me
You got to give it to me
You got to give it to me

you got to give it up,
you got to give it up,

you got to give it to me,
you got to give it to me.

You're so slick honey, know every trick now
You know what i need, I'll get it somehow
c'mon baby, please believe it, c'mon baby please!

You got to give it to me
You got to give it to me
You got to give it to me
You got to give it to me

You've been bugging me, every night now
You say you want it, you want it right now
I can't get through it, I can't get to it
c'mon baby please!

You got to give it up (give it up)
You got to give it up (give it up)

You got to give it to me
You got to give it to me
You got to give it to me
You got to give it to me

Why leave me cold when it's so warm inside?
Come on baby, you're love is too good to hide!
One two three four!

Hey guess what
You got to give it up
You got to give it up

You know what else
You got give it to me
You got give it to me
You got give it to me
You got give it to me
Whoo!
