</lyrics>

Leave - don't remember

Don't even try

Take your number

In order to say goodbye

Pills before sleep

Flaws in mind

Abandoned on the wind

All of what I wanted

Act like you want

to me and so it's enough

Leave - don't remember

It already isn't painful to me!

-:

Stars aren't stars to me,

I've beaten the sky

Tears aren't tears to me

What did I love it for...

Leave - don't remember

Just don't remain

Forget your number

And confess to yourself

She doesn't leave forever

Emptiness in her palms

And with a siren heart

She fights in the phone

Unknowingly, you live

Access is disconnected

I'm simply different

But I didn't forget everything...
