&lt;lyrics&gt;

It's like a white lily's slowly  
Blossoming from a bud of life  
But everything happens to change  
In a withering dream

How many of the starry nights  
Were the promised nights with you  
But all of the uncertainties ended  
In an endless game

Refrain:

How many years?  
How many winters?  
Everyday  
You're alone  
How many winters?  
How many years?  
You wait in the dawn  
How many years!!(2 times)

Simply, you accidentally lost your way  
And you can't find the way  
Simply, you weep in you sleep  
And you can't escape

Refrain
