

# Refused, 5th Freedom

An ideological system, constructed to guarantee  
that the public remains passive, uneducated, in apathy  
That the crimes committed, they just pass us by  
As the state continues to fill us with lies  
Face the flag, in the land of hypocrisy  
free to conquer, free to rape, free to kill, free to take  
free to do whatever's in your will  
how many actions, in the name of democracy?  
when we don't even know, who's our enemy  
survival of the fittest, blend with superiority  
so many untold stories, can't spell credibility  
How many lies in the name of:  
Freedom, Peace, Progress, Democracy?  
Tolerance is acceptance  
the 5th freedom
