

Reggie And The Full Effect, Fiona Apple Kiss My

It's what I can't explain
I find it hard to do
Know I could remind myself
When I think I'll wait
Know its what I do
Wish I could remind myself
It's all I've got
It's all I want for you
Soon you'll look away and know you're right
And see that you know
Now I can regret
All these things I do
Better that I hide myself
What I want to say
Everything to you
Sometimes I just can't find myself
It's all I've got
It's all I want for you
Soon you'll look away and know you're right
And see that you know
Stay and know tonight
And say that you know
This life...
Is life...
Feels like...
Is right...
You know I can't explain
Everything I do
Just know I'm doing it for you
And when I think I'll wait
Know its what I do
And what I'm doing is for you
It's all I've got
It's all I want for you
Soon you'll look away and know you're right
And see that you know
Stay and know tonight
And see that you know
Stay and know you're mine
And see that you know
I will run
What can save me under
Stay with me girl
