

# Reggie And The Full Effect, The Return Of The B

Here now don't be afraid  
Here now don't let it fade  
Sorry for the time you've wasted  
Heard it but I never thought it was true

This is my reminder  
Of that summer  
That I spent alone with you

She'll never know  
Me I'm just afraid  
She'll never know

Here now, don't be afraid  
Here now don't let it fade  
Wishing I could take it back  
What ever that it was I did to you  
So much for the years I've grown up  
Part from all the memories of you

She'll never know  
Me I'm just afraid  
She'll never know

So where's your pennant now  
I've heard you're hurting  
So who's in your bed now?  
I'm wishing it was me

She'll never know  
Me I'm just afraid  
She'll never know  
Me I'm just afraid
