

# Reilly Maggie, Every Single Heartbeat

Every single heartbeat...  
I see you sleeping  
Hungry for every smile on your face  
I feel you in every single heartbeat  
I hear you breathing  
Worries are gone  
And leave no trace  
We're closer with every single heartbeat  
There's such a rhythm  
Inside my head  
My soul is dancing  
I'm not afraid  
I feel a rush  
Every time you're near  
And in the stillness all I hear  
Every single heartbeat...  
Lost in wonder  
How did we find a love like this?  
Together we'll chase away the darkness  
Every single heartbeat...  
It's so amazing  
Carried along on waves of bliss  
Lifting our spirits  
Soaring higher  
There's such a rhythm  
Inside my head  
My soul is dancing  
I'm not afraid  
I feel a rush  
Every time you're near  
And in the stillness all I hear  
Every single heartbeat...  
I watch you dreaming  
Follow you to your secret place  
Together with every single heartbeat  
I feel the rhythm  
When you are near  
And in the stillness all I hear  
Every single heartbeat...  
Lost in wonder  
How did we find a love like this?  
Together we'll chase away the darkness  
It's so amazing  
Carried along on waves of bliss  
Lifting our spirits  
Soaring higher  
I feel a rhythm inside my head  
My soul is dancing  
I'm not afraid  
In the stillness you are here  
Ooh in my soul of love  
You changed my life  
(Now my heart beats for you)  
So many ways  
Every single heartbeat...  
And all I do  
Sending love on its way to you  
I don't get down, I'm never blue  
I know your heart beats for me too  
Every single heartbeat...  
And all I do  
Reminds me that you feel it too  
When I'm alone a voice comes through  
Tells me I've found love

Lost in wonder etc...
