Relient K, Forward Motion

whoa-o...i've been banging my head against the wall whoa-o...for so long it seems i knocked it down, yeah it got knocked down whoa-o...and the heating bill went through the roof whoa-o...and the wall i knocked down was the proof that my landlord needed to kick me out

i got evicted now i'm living on the street my spirits lifted...oh wait, that wasn't me too many turns have turned out to be wrong this time i learned that, i knew it all along

when car crashes occur then i'll be what you were when i see what i should when i see that it's good (that it's good)

to experience the bittersweet to taste defeat then brush my teeth experience the bittersweet to taste defeat then brush my teeth

cause i struggle with forward motion
i struggle with forward motion
we all struggle with forward motion
cause forward motion is harder than it sounds
well everytime i gain some ground
i gotta turn myself around again
it's harder than it sounds
well everytime i gain some ground
i gotta turn myself around again

whoa-o...i've been banging my head against the wall whoa-o...for so long it seems i got knocked out. yeah, i got knocked out cold whoa-o...and the medical bills went through the roof whoa-o...and the scar on my head is the proof that i'll still remember this when i get old

i got evicted now i'm living on the street my spirits lifted...oh wait, that wasn't me too many turns have turned out to be wrong this time i learned that, i knew it all along

when i grasp the concept then i'll sleep where you slept when i know i need help when i allow myself (allow myself)

to experience the bittersweet to taste defeat then brush your teeth experience the bittersweet to taste defeat then brush your teeth

cause i struggle with forward motion i struggle with forward motion we all struggle with forward motion

cause forward motion is harder than it sounds well everytime i gain some ground i gotta turn myself around again it's harder than it sounds well everytime i gain some ground i gotta turn myself around again

cause i struggle with forward motion cause i struggle with forward motion we all struggle with forward motion

[in background:]
(cause forward motion is harder than it sounds. well everytime i gain some ground i gotta turn myself around again cause forward motion is harder than it sounds well everytime i gain some ground i gotta turn myself around again)

cause i struggle with forward motion cause i struggle with forward motion we all struggle with forward motion

cause i struggle with forward motion cause i struggle with forward motion we all struggle with forward motion
