

Relient K, Must Have Done Something Right

[Verse 1]

We should get jerseys cause we make a great team
But yours would look better than mine, cause you're outta my league
And I know that it's so cliché to tell you that everyday
I spend with you is the new best day of my life
Everyone watching us just turns away with disgust
It's Jealously, they can see that we've got it going on

[Pre-chorus]

And I'm racking my brain for a new improved way
To let you know your more to me than what I know how to say
You're OK with the way this is going to be
This is going to be the best thing we've ever seen

[Chorus]

If anyone can make me a better person you could
All I gotta say is I musta done something good
I came along one day and you rearranged my life
All I gotta say is I musta done something right
I musta done something right

[Verse 2]

Maybe I'm just lucky cause it's hard to believe
Believe that somebody like you'd end up with someone like me
And I know that it's so cliché to talk about you this way
But I'll push all my inhibitions aside
It's so very obvious to everyone watching us
That we have got something real good going on

[Pre-chorus]

And I'm racking my brain for a new improved way
To let you know your more to me than what I know how to say
You're OK with the way this is going to be
This is going to be the best thing we've ever seen

[Chorus x3]

If anyone can make me a better person you could
All I gotta say is I musta done something good
I came along one day and you rearranged my life
All I gotta say is I musta done something right
I musta done something right
