

Relient K, Operation

I need an...

Take me to a hospital
Cuz there's too much blood lost to tell
If I'll make it out alive
My body's got a war inside
The bossy nurse I talked to her
Into getting a new doctor
Someone who cares about me
Makes sense
Someone with patience for his patients

[Chorus:]

I need an OP-ER-A-TION
Oh [lord] Please operate
I need an OP-ER-A-TION
Renew the pride, extract the hate
Bring the color back into my cheeks
Cuz my flesh is wrong
And my spirits weak

I need a room for this emergency
The ER would suit me perfectly
with tubes and needles stuck into me
I'm on an envoy Turn inside me
I think my life just passed me by
20 years, an ugly sight
But God was there through thin and thick
So much that it makes me sick

[Chorus... then again after a break until end]
