

Remedy, Release Legalise

Stand up for your rights, don't give up the fight
Accept that the time is right, out dated laws we've got to fight
And not just support the cause, gotta change the law
Time to support the cause

Gotta realise, gotta legalise
Gotta change the law
Gotta legalise, gotta realise
We're not children anymore

In '79 the time is right, earth's children must unite
To give our weekend fight, what is our human right
Support is what we need, to keep the movement free
Support is what we need, to keep the movement free

Gotta realise, gotta legalise
Gotta change our thought
Gotta legalise, gotta realise

We're not children anymore, not anymore

Gotta realise, gotta legalise
Gotta realise, gotta legalise
Gotta change our thought
Gotta realise, and we gotta legalise
We gotta keep the movement free yeah
Gotta set the children free yeah

Gotta legalise, gotta realise
We gotta keep the movement free yeah
We gotta keep the movement free
We gotta keep the movement free
We gotta keep the movement free
