

Remedy, Southern Stars

(Anderson/Jordan/Meyer)

The ghosts of Eureka are calling to me now
To fashion a sword from the steel of the plough
And if blood must spill, for freedom so dear
Rally 'round the flag boys, rally 'round and cheer

I wanna live my life under Southern Stars
I wanna live my life under Southern Stars
I wanna live my life under Southern Stars
I wanna live my life under Southern Stars

I was born and raised here this land is my home
And I'll fight if I have to keep this land my own
I'm a man with pride, my heart is straight ahead
So come and swear an oath on the stars above our head

I wanna live my life under Southern Stars

I wanna live my life under Southern Stars
I wanna live my life under Southern Stars
I wanna live my life under Southern Stars

The countries glories are fading away
But here I was born and here I'll stay

I wanna live my life under Southern Stars
I wanna live my life under Southern Stars
I wanna live my life under Southern Stars
I wanna live my life under Southern Stars
I wanna live
Under southern stars
I wanna live my life under Southern Stars
I wanna live my life under Southern Stars
I wanna live my life under Southern Stars
