

# Remission Blame, Shadows way

I stand alone, no body is with me  
No way to run, no time to live  
Im going straight, death is behind  
Its no escape, I must fight!

I rode all the Earth

From frozen North

To hot South

I sailed stormed seas

But I never find it

During all long journey

And long lonely hours

I never felt

I never felt

the happiness

Ref:

That all for nothing

All my treats and my blood

I saw the fear and rage

But I didnt find my way

I looked for the cure

But I failed at last

I found only shadows

In all Earth they are the same

No light in dark tunnel

No hope in cruel world

And theres no escape

Or chance to survive
