

# Remy Shand, Liberate

It's so hard to understand  
you've already made you plan  
i could see it in your eyes  
the story that you told was so harmful and so cold  
there's no way to compromise  
i'm gonna liberate my soul  
so don't pacify my role and my right, and my right  
ooh, i've got to take control  
as the future will unfold and take flight, and take flight  
standing by your side  
only made me realize that your truth was far from right  
oh, how could i confide in a source that must divide  
all the way my hands were tied  
repeat chorus  
bridge  
repeat chorus
