

# Renaissance, In The Sunshine

Love of my life  
Where are you now on this earth  
Safe and secure as the deep ocean floor  
You were always there  
You're on my mind  
Longing for you in my life  
On a white horse we would ride like the wind  
All the loving times  
All of my love all my emotion  
Always there calling me  
Anytime reach out and I'll be there  
And though we're far apart  
We'll always have our love  
We'll always be the same  
So look in the sky  
We share the moon and stars  
For all eternity  
The road is long and I am with you never-ending  
We're walking along in the sunshine  
Here in my heart  
Floating in a gondola of dreams  
You will appear as the mist disappears  
I will hear our song  
When you are gone  
To a place in the sun  
Silence is heard all the wondrous words  
You're the only one  
All my love and emotion  
Always there calling to me  
Anytime reach out and I'll be there  
And though we're far apart  
We'll always have our love  
We'll always be the same  
So look into the sky  
We share the moon and stars  
For all eternity  
The road is long and I am with you  
never-ending  
We're walking along in the sunshine
