

# Renata Wolkiewicz (Wólkiewicz), UNITED FOR L

I have been in deepest water  
Walk the sky on the unknown  
Trying hard to solve my problems  
I fear to be alone

I believe I was a ...  
I could do it all my on  
All the world toy make me promised  
Take me to the top

I believe that man who mean to be our live  
But one day  
One day he's changed my heart

Flames and fire straight in the faces  
Evil forces stand against us  
I'm not afraid  
I'll take the chance  
The walls might be falling around me  
There's power protecting and guarding  
Unite us to fight for love

All the questions deep in ...  
But I thought I knew it all  
Ne surrounding, new beginning  
Foreign .. to my soul

There's a time when pain kill inside in  
There's just gone  
But I know  
Life is what's worth fighting for

Flames and fire straight in the faces  
Evil forces stand against us  
I'm not afraid  
I'll take the chance  
The walls might be falling around me  
There's power protecting and guarding  
Unite us to fight for love

Even when the enemies raising  
Hand in hand all united in fighting  
No fear in us!  
We reach the stars  
Our destiny leads us together  
To pure love will last forever  
So unite to dance tonight

Even when the enemies raising  
Hand in hand all united in fighting  
No fear in us!  
We reach the stars
