

Rentals, Getting By

i know a girl who lives off the coast of spain
21 and the prime of her life
brains are the most important thing shes got
and she dont need much to get by
its been a long long time since i felt this way
baby, all the way back to highschool
but lately i feel like an old fat man
with all the lies that stay young a young fool

chorus:
and we dont really care too much
no, we dont need the lies
we got nothing in common that i can see
we drink on, we drink on, we drink ooonnnnnn
and get by

she dont care too much for vegetables
and she hates rude american men
questions and the ball of 99
and she laughs and she laughs with her friends

chorus:
and i dont really care too much
no, i dont need the lies
we got nothing in common that i can see
we drink on, we drink on, we drink onnnnnn

we drink on
getting by
we get by
getting by

yeah yeah yeah
she dont really care bout me
no, theres no reason to lie
we got nothing in common
and we both agree
drink on, and drink on, and drink onnnnn

and yeah, we dont really care too much
we dont really care too much
we dont really care too much
we drink on, and drink on, and drink on
and get by
we're gettin by
