

# Res, The Hustler

I've got something with me  
My soul's kinda gritty  
Now do I lie or run away

Engine engine #9  
You'll get your way  
Or I'll get mine  
Sure as the sun will shine each day

Just like the apple  
Temptress sets in  
I win you're tackled  
Shackles on my feet won't let me move

Not soft but supple  
Come with all you got  
My wings won't ruffle  
Victory is sweet but I ain't scared to lose

[Chorus:]  
In my house the moon still shines in the day  
But there's a lotta old bills I gotta pay  
In my house feel free to dance like it's May  
But there's a lotta old bills I gotta pay

Mama, can you here me? (What?)  
Papa I'm sittin' pretty  
Don't have to shun my heart this time  
I know when it really matters  
It'll be me  
Alone and regrets will be none

Just like the apple  
Temptress sets in  
I win you're tackled  
Shackles on my feet won't let me move  
Not soft but supple  
Come with all you got  
My wings won't ruffle  
Victory is sweet but I ain't scared to lose

[Chorus]

I'll be on my own  
It don't matter I'm grown  
I won't be singin' no sad song in the lay  
And if I rub you wrong  
Baby I come on strong  
I got no mind to cushion what I say

[Chorus]
