

# Rev Theory, Favorite Disease

Oh, oh

Oh, oh

You are my favorite disease

You are my favorite disease

Yeah

I'm sick and tired of the ways that you want me to be

Sick and tired of the shit you keep spittin'

I won't deny all the times that I wanted to leave

But I can't cause I'd miss all your bitchin' at me

And it started out so cool

Can't stand what it turned in to

Like a drug I can't kick

It's so hard to admit it to you

Cause I hate myself when I'm spun and I'm lit

Wish I wasn't addicted to you

But I can't help it

You got what I need

You are my favorite disease

You are my favorite disease

So hard to say why I keep comin' back to you

Hard to say that I like how I'm livin'

But I'm a slave to the pain that you're puttin' me through

Can't walk away cause I love what you're willin' to do

And it started out so cool

Can't stand what it turned in to

Like a drug I can't kick

It's so hard to admit it to you

Cause I hate myself when I'm spun and I'm lit

Wish I wasn't addicted to you

But I can't help it

You got what I need

You are my favorite disease

I know it's only killing both of us (You are my favorite disease)

You're not immune so don't think you can give it up

Up

Up

Yeah

Cause I hate myself when I'm spun and I'm lit

Wish I wasn't addicted to you

But I can't help it

You got what I need

You are my favorite disease

Cause I hate myself when I'm spun and I'm lit

Wish I wasn't addicted to you

But I can't help it

You got what I need

You are my favorite disease

I'm sick and tired of the ways that you want me to be

Sick and tired of the shit you keep spittin' (You are my favorite disease)

I won't deny all the times that I wanted to leave

But I can't cause I'd miss all your bitchin' at me (You are my favorite disease)

And it started out so cool (Oh, Oh)

Can't stand what it turned in to...

You are my favorite disease
