

Reverend Horton Heat, Baby, You Know Who

I've got chicks to the left, women to the right
Guess who it is I think about at night
It's you, yeah you, it's you
Baby you know who

I got a little thing, around my neck
Something about to make her a nervous wreck
It's you, yeah you, it's you
Baby, you know who

You know who it's you I still love
I want you back and I pray to the lord above
Quit playing silly games
I don't have to say your name

Just ask my closest friends what's true
They'll say I'm still in love with you
I want you back and I need you real bad
You're the best damn lover I've ever had

It's you, yeah you, it's you
Baby, you know who

(Spoken): Yeah it's you baby, and I don't even have to say your name!
