

# Reverend Horton Heat, Indigo Friends

As long as I live  
I won't know why  
Why some of my friends  
Turn to indigo, God

They just gave up  
That's what they did  
The secret thing they very well hid  
Everyone loses when heroin wins  
I just miss my indigo friends

These are not bad men  
These are not bad girls  
They just stray by  
In their own little world

Wrestling Dan and Tom and Jay  
Will and others showed life today  
Fought that fight no one wins  
Heroin stole my indigo friends

As time slips by  
I sit and wonder why  
Why them not me  
Oh why them not me

I thank the Lord did not go there  
Really didn't see their life to sin  
Really didn't know till the bitter end  
Heroin stole my indigo friends  
Indigo friends

As long as I live  
I won't know why  
Why some of my friends  
Turn to indigo, God

They just gave up  
That's what they did  
The secret thing they very well hid  
Everyone loses when heroin wins  
I just miss my indigo friends

Indigo friends  
Indigo friends  
Indigo friends
