Revis, Living Rooms

So what's your purpose for me With your intentions in the air So what if I wanted to Ask you If I could meet you there

Go inside I'm coming through For you I could not be more...gone

We watched each other escape From the commotion that we knew The way our languages fade In through an empty living room

Go inside I'm coming through Into our world that you surround

Show me now I'm here with you For you I could not be more...gone

Go inside I'm coming through Into our world that you surrounded

Show me now I'm here with you For you (2x)

I could not be more...gone
