

Revis, Spin

I can see your inner motive
When you wear it on your face
Indisposed to the world
You won't let yourself be saved

You're the hand that spins my revolver around when
You push me away
(Repeat)

On the waves of an ocean
I'm a space god in the rain
In the arms of devotion
Where you never found your place

(Chorus)

You need no one to spin your revolver
so go and get my gun
You need no one to spin your revolver
so go and get my...
GUN!

(Chorus x2)

I can see she's falling faster
Running to her own disaster
(You push me away)
