

# Revolution Renaissance, We Are Magic

Born from the spark that once started this all  
We're standing here before the creation  
Look for the Answers, we'll find them all here  
Witness the birth of the digital god  
Soon there will be no more damnation  
And there will be no more pain  
We are magic, we are starlight  
We are children of the night  
We are shining, here forever, we will be  
We are magic, we are stardust  
Just reflections of eternity  
Endless Circle, here forever  
We will be... cause we are magic
