

Revolution Saints, Against the Winds

Bright Lights

Is that what you wanted?

Taking this heart one more time

You burn in shame

Now this love is haunted

Gonna leave you in the cold

Gotta take an open road

Here's a sign of defeat I know

Just go

I'm used to walk alone

Don't want every kiss that I know to die for

I never sailed off shore

Against the winds

I always loved to the bone

I can sing another song

I'll always go against the winds

Cold nights

Is this what you dream of

IBreaking this heart one more time

You crawl in blame

Now this soul is haunted

Gonna leave you in the cold

Gotta take an open road

Here's a sign of defeat I know

Just go

I'm used to walk alone

Don't want every kiss that I know to die for

I never sailed off shore

Against the winds

I always loved to the bone

I can sing another song

I'll always go against the winds

I'm used to walk alone

Don't want every kiss that I know to die for

I never sailed off shore

Against the winds

I always loved to the bone

I can sing another song

I'll always go against the winds
