

Rez Band, It's You

It's You
Make the atoms dance
It's You
Creates pure romance
It's You
I am thinking of
It's You, You, You

It's You
Lifts the poor man's head
It's You
Gives us daily bread
It's You
Sums up reality
It's You, You, You

When the world's powers got together
To nail You on that tree
You rolled away their hearts of stone
Said, "Come on - follow Me!"

It's You
Came to heal the sick
It's You
Sword that cuts to the quick
It's You
Cave this girl Your life
It's You, You, You

It's You
Washing off every stain
It's You
Who will come again
It's You
Fills my heart with Your love
It's You, You, You

I wanna be like You
