

# Rhapsody, Defenders of Gaia

Neverending is my love for you, my Earth  
More and more each day  
Your greatness speaks to me  
You deserve all the respect  
From your sons for you've given us  
The miracle of life  
And we go on without reflection  
always forgetting who we are  
We deny her our attention  
then we lament when life is hard  
to the whole world I praise your wonder  
Your beauty and your majesty  
for your sons who need protection  
I will sing and all shall heed  
We prevent ourselves  
From taking actions so  
Thinking other people  
Will do it for us  
We always have better things to do  
Mother Earth I hear your new call  
I'll do the best for you  
And we go on without reflection  
always forgetting who we are  
We deny her our attention  
then we lament when life is hard  
to the whole world i praise your wonder  
Your beauty and your majesty  
for your sons who need protection  
I will sing and all shall heed  
You deserve all the respect  
From your sons for you've given us  
The miracle of life  
And we go on without reflection  
always forgetting who we are  
We deny her our attention  
then we lament when life is hard  
to the whole world i praise your wonder  
Your beauty and your majesty  
for your sons who need protection  
I will sing and all shall heed
