

Rheostatics, Baby, I Love You

Martin Tielli

Sittin' by the lake, lookin' at your face,
I realize how much I love you.
I really love you, I wanna kiss you all over your body.
Baby, I love you. You're gonna be my forever lover.

Baby, I love you,
From the moment I saw you standing there it was true.
I'm thinking of you,
With the grass in your toes and the wind in your hair.
I was there. Happy forever,
As long as I'm beside you, you'll be easy to reach.
Close at hand. Together forever,
As long as you're my baby and I'm your man.

I know it's true,
But I'm so goddamn in love with you.
I know it's true,
Sitting by the river looking down at you.
Where do we go from here?

You know you did you know you did you know you did...
Ah, baby, like a child, I love you...

I know it's true,
But I'm so goddamn in love with you.
I know it's true,
But I'm just so fucking in love with you.
Where do we go from here?
Baby, I love you.
I wanna make you mine.
With your golden hair, and your pink feet.
I wanna kiss you all over my body.
