

# Rhett Akins, What They're Talkin' About

(Larry Boone/Paul Nelson/Rhett Akins)  
(Track 2 - Time 3:27)

Stole the keys to my daddy's ride  
And I took my baby for a midnight drive  
Our hearts were racing as we headed down highway 9  
We didn't have no lover's lane  
But that old back road worked just the same  
It wasn't long till I knew deep inside

This must be what they're talkin' about  
When you find the one you can't live without  
Somewhere deep in the night, I saw the light  
Oh her love got a hold of me  
Left no doubt  
This must be what they're talkin' about

I read about it in the magazines  
I'd even seen it on the movie screen  
Heard 'em sing about it in a million songs  
I never really understood  
Till we lit that fire that night in the woods  
Started a love that still burns just as strong

This must be what they're talkin' about  
When you find the one you can't live without  
Somewhere deep in the night, I saw the light  
Oh her love got a hold of me  
Left no doubt  
This must be what they're talkin' about

Somewhere deep in the night, I saw the light  
Oh her love got a hold of me  
Left no doubt  
This must be what they're talkin' about  
This must be what they're talkin' about  
This must be what they're talkin' about  
(This must be what they're talkin' about)
