

# RHODES, Close Your Eyes

Maybe, maybe I am just a skater too  
It's alright, stay by my side  
On the edge, on the edge of everything we know  
It's alright, just don't look down  
And I will hold on

I'll never let go  
You're right beside me  
So just close your eyes  
I'll never let go, you're all that I need  
So just close your eyes

When I look back,  
I look back on the times you tried to hide  
Inside your delicate mind  
In the end, in the end I'm just the same as you  
And it's alright, just stay by my side  
And I will hold on

I'll never let go  
You're right beside me  
So just close your eyes  
I'll never let go, you're all that I need  
So just close your eyes

I would die for you, I would die for you  
Because you're my all  
I would die for you, I would die for you  
Because you're my all  
So just close your eyes  
So just close your eyes

I'll never let go  
You're right beside me  
So just close your eyes  
I'll never let go, you're all that I need  
So just close your eyes
