

# Rhodes Happy, For We Believe

(Why are we worlds away?)  
What is this thing?  
What is this love?

Where is this hope coming from?  
Where is this hope coming from?  
Why do we see future before our eyes?  
Why do we see future before our eyes?  
(Why are we worlds away?)  
Clouded with what's to be  
Make our own destiny

We know that that's the key  
We know that that's the key  
For we believe  
In what we do  
For we believe  
In what we do

(Why are we worlds away?)  
Safety scares us away  
On the edge is where we play

When we run others delay  
Oh when we run, others delay  
For we believe  
In what we do  
For we believe  
In what we do  
For we believe  
In what we do  
For we believe  
In what we do
