

Rhonda Vincent, Ain't That Love

(Kostas)

I will always remember the first time that we met
And the first time that I kissed your lips is a thing I won't forget
The special way you held me is the way you hold me still
And I knew right then that you loved me and I know you always will

Chorus
Ain't that love
Ain't that how it's supposed to be
When two hearts come together as one
Just like you and me
Ain't that love
Shining in your eyes
Heaven sent from up above
Ain't that love

My grandma and my grandpa, my mama and my dad
Didn't have a lot of things but love is what they had
Their love kept them together through the many years
Though life was hard they shared it all through the laughter and the tears

Chorus

Baby you're the sunshine that brightens up my day
And I will always stand by you darlin' come what may
And I will always love you to have and hold
And I'll keep my every promises to you with this band of gold

Chorus

Heaven sent from up above
Ain't that love
